

December 2009 Presenting Companies

7 Degrees, Inc., Cottonwood Heights, UT

www.7-degrees.com

With its PeopleMaps product line, 7 Degrees is automating Relationship Selling to accelerate sales with a massive Business Social Graph.

All Optronics, Inc., Tucson, AZ

www.alloptronics.com

To make solar electricity cost competitive with conventional power, All Optronics is developing an innovative photovoltaic (PV) solar panel.

Blue Diamond Technologies, Ltd., Phoenix, AZ

www.bluediamondtechltd.com

RecycleJet by Blue Diamond Technologies harnesses the power of ultra high pressure water jet systems to provide the next generation in scrap tire recycling technology

Engineering Synthesis Design, Inc., Tucson, AZ

www.engsynthesis.com

Engineering Synthesis Design (ESDI) is a leading provider of laser based measurement solutions (Optical Metrology - Interferometers) to a bluechip customer base around the world.

intelliCyt Corporation, Albuquerque, NM

www.intellicyt.com

IntelliCyt Corporation develops and markets innovative high throughput cell-based screening solutions for drug discovery and life science research.

Invoy Technologies, LLC, Chandler, AZ

www.invoytech.com

The patented and patent-pending, hand-held human breath sensors by Invoy are positioned to diagnose and manage certain diseases (e.g., weight management, diabetic coma).

MedApps, Inc., Scottsdale, AZ

www.medapps.net

MedApps uses Mobile Wireless technology to connect a patient with their healthcare provider in order to improve the quality of care and reduce cost

PureEnergy Solutions, Boulder, CO

www.wildcharge.com

PureEnergy Solutions delivers energy management solutions that will change the way people think about their electronic devices, utilizing industry leading universal charging technologies combined with the latest in environmentally responsible storage solutions, to deliver the consumer with easy to use and reliable means of accessing and storing clean energy.

Regenesis Biomedical, Scottsdale, AZ

www.regenesbiomedical.com

Regenesis developed, patented, and now markets the Provant® Therapy System, which has been shown to improve patient rates of wound healing, and reduce pain associated with soft tissue trauma.

SIO2, Scottsdale, AZ

www.sio2associates.com

SIO2 is a nanotech R&D company that develops and licenses IP to participants in the Intraocular Lens (IOL) and other silicon based markets.

Synbuild, Tempe, AZ

www.synbuild.com

Synbuild is engaged in custom gene synthesis using its patent pending technology enabling fast and cost-efficient assembly from inexpensive microarray synthesized oligos. It is capable of assembling hundreds genes per week from a single pool of oligos for only a fraction of the current cost.

TruTouch, Albuquerque, NM

www.trutouchtechnologies.com

TruTouch provides a non-invasive alcohol measurement technology and products profitably dominating global markets and saving tens of thousands of lives every year.

Vertical Power, Albuquerque, NM

www.verticalpower.com

Vertical Power designs and manufactures modern electrical systems for small aircraft that reduce wiring complexity and weight, increase reliability, and reduce pilot workload. Fifty-year-old mechanical systems and a myriad of single-function black boxes are replaced by modern solid-state technology.
