

Company Overview:

ShiftX LLC is a bootstrapped SaaS company founded in 2018 with its headquarters in Chandler, AZ. We also have an office in Chennai, India. We are a team of 10. Our vision is to provide better work-life balance with the most intelligent scheduling platform.

Product Overview:

Employee scheduling process is complex. Poor work and vacation schedules impacts work-life balance. ShiftX solves scheduling problems. We are first in the industry to provide live shift and vacation scheduling. Employees access a simple, elegant scheduling app from any device and can easily express their preferences or pick a shift or vacation of their choice during their allotted time slot. Our scalable, cloud-first solution can be self-managed or used as a managed SaaS service. ShiftX is a cloud first, mobile-first purpose-built extensible scheduling platform customizable for business needs. We have a patent-pending: US62/833542 SYSTEM AND METHOD FOR TIME SLOT ASSIGNMENT

Market Opportunity:

This solution is applicable to any industry/company who wants to solve the employee scheduling problem. We launched our product to one of world's largest Airlines in May 2019. ShiftX API based and connector-based approach enables it to connect to a wide range of WFM and HR applications seamlessly.
